

MODULAR STRUCTURE TRAINING IN LABORATORY ANIMAL SCIENCE

This **modular structure** recognises that training should be correlated with needs. Trainers can be flexible in the selection of course content, training materials and delivery methods, which will deliver the learning outcomes in a manner that meets their requirements.

Below you are able to see the modules included in each function and its schedule.

FUNCTION A – Authorised person to carry out procedures on animals (does not include anaesthesia) – **22 hours**

Directed to researchers or research technicians.

Dates: 25th September to 3rd October.

This function includes the following modules:

- Module 1 – 25th September
- Module 2 – 25th September
- Module 3.1 – 26th September
- Module 3.2 – 29th September
- Module 4 – 26th September
- Module 5 – 27th September
- Module 6.1 – 27th September, 2nd and 3rd October
- Module 6.2 – 2nd, 3rd October
- Module 7 – 28th September
- Module 8 – 29th September

FUNCTION B – Authorised person to design procedures and projects (does not confer competences to perform procedures on animals) – 27 hours

Directed to principal investigators.

Dates: 25th September to 3rd October.

This function includes the following modules:

- Module 1 – 25th September
- Module 2 – 25th September
- Module 3.1 – 26th September
- Module 4 – 26th September
- Module 5 – 27th September
- Module 6.1 – 27th September, 2nd and 3rd October
- Module 6.2 – 2nd 3rd October
- Module 7 – 28th September
- Module 9 – 29th September
- Module 10 – 2nd October
- Module 11 – 3rd October

FUNCTION C – Authorised person to take care of animals – 18.5 hours

Directed to persons responsible for overseeing the welfare and care of animals (tratadores).

Dates: 25th September to 3rd October.

This function includes the following modules:

- Module 1 – 25th September
- Module 2 – 25th September
- Module 3.1 – 26th September
- Module 3.2 – 29th September
- Module 4 – 26th September
- Module 5 – 27th September
- Module 6.1 – 27th September, 2nd e 3rd October
- Module 6.2 – 2nd and 3rd October

ADDITIONAL TASK SPECIFIC MODULES

Module 20: Anaesthesia for minor procedures – 4.5 hours

[Additional Task Specific Module for Functions A and B as required]

Theory – 27th September (**e-learning**)

Practice – 2nd and 3rd October

Module 21: Advanced anaesthesia for surgical or prolonged procedures – 8.5 hours

[Additional Task Specific Module]

Theory – 28th September

Practice – 4th and 6th October

Module 22: Principles of surgery – 6 hours

[Additional Task Specific Module for Functions A and B as required]

Theory – 4th October

Practice – 4th and 6th October
